SUMMARY

Final-year Computer Science undergraduate specializing in AI & ML, with hands-on experience building full-stack AI platforms, multi-agent systems, and applied ML tools. Comfortable working across the stack — React/TypeScript front ends, FastAPI/Python back ends, and PyTorch-based ML components — with a track record of taking projects from prototype to demo-ready under tight deadlines.

EDUCATION

B.E. Computer Science and Engineering (AI & ML)

Saranathan College of Engineering, Tiruchirappalli, Tamil Nadu

Expected 2027

- CGPA: 8.3

EXPERIENCE

AI Intern — 3D-LABS

Jun 2026 – Aug 2026

- Built an AI-powered structural health monitoring (SHM) digital twin platform using React/TypeScript and FastAPI/PyTorch.
- Iterated the product through multiple design and engineering rounds, including a shift from a stylized UI to an instrumentation/SCADA-style interface suited to a life-safety engineering tool.
- Added production-oriented features such as authentication, multi-tenancy, and a PostgreSQL-backed data layer, plus a manual telemetry entry mode to unblock a tight submission deadline.

PROJECTS

CareFlow — Multi-agent hospital operations platform

2026

- Designed a multi-agent system with Monitoring/Patient Flow, Triage, and Bed/Resource agents coordinated by an Orchestrator built on LangGraph.
- Combined Gemini 2.0 Flash for reasoning with deterministic Python logic for database mutations and risk classification.
- Implemented a hard-gated human approval step for high-risk actions with a persistent audit trail as a core safety feature.
- Stack: React, TypeScript, FastAPI, SQLite.

Noteexa — Collaborative study notes sharing platform

Ongoing

- Building a web platform for students to share and collaborate on exam and study notes, making it easier to organize and access notes across subjects.
- Designed as a secondary project alongside coursework, focused on real collaboration features rather than a static file dump.

TECHNICAL SKILLS

- Languages: Python, Java, SQL, HTML , CSS
- Frameworks & Tools: React, TypeScript, FastAPI, PyTorch, LangGraph
- Cloud : Azure

SOFT SKILLS

- Mentoring & peer guidance
- Teamwork & leadership
- Communication

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals
- Microsoft Certified: Azure AI Fundamentals
